DETAILED ACTION

1. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 1, the recitation "the parameter of the modular multiplication operation", lines 14-15, lacks a proper antecedent basis and is unclear as to what it is. The recitations "the first sub-operand" and "the first sub-operand" one line 19 also lack proper antecedent basis. They should be - - the first plurality sub-operands - - and - - the second plurality of sub-operands - -, respectively.

As per claim 5, line 1, "Claim 1-" should be - - Claim 1 - -.

As per claim 6, it is indefinite as to what "a first and second parameters of the modular multiplication operation", lines 17-18, are. Further, the recitation "which are selected from one of the two groups, the first sub-operand and parameter and the second sub-operand and parameter", lines 22-24, is indefinite as to what it means. In addition, the recitation "the two groups" lacks a proper antecedent basis.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
